Dear Members of the Admissions Committee,

I am pleased to recommend Sajid Mehmood, for the **Master of Data Science** at Swinburne University of Technology, Australia. As Sajid's instructor for the strategic module during his Bachelor's program (Year 3) in Information Technology at Middlesex University Dubai, I observed his academic diligence and enthusiasm for technology. His steady academic performance and keen interest in learning suggest he has the potential to thrive in this program.

During his undergraduate studies, Sajid consistently performed well, demonstrating strong technical and analytical skills through his coursework. He also worked effectively in team settings, showing a collaborative mindset and a practical approach to problem-solving. These attributes will serve him well in your program and contribute positively to the university environment.

If you need any further information or have specific questions about Sajid's qualifications, please do not hesitate to contact me. I am confident he has the capability to succeed in your program and make a meaningful contribution to the university community.

Thank you for considering Sajid Mehmood's application.

Warm regards,

Mukarram Ahmed

Adjunct Faculty in Management

Computer Engineering & Informatics School of Science and Technology
